Joe Driskell
Superintendent

Don Hamilton
Asst. Superintendent

Todd Moore
Jr-Sr High School Principal

Mark Brown
Jr-Sr High Asst. Principal

Mickey Gilbert
Elementary Principal

To Whom It May Concern:

Groveton ISD began looking for ways to save in energy costs. We began negotiating with Way Companies and another energy consultant company to determine ways they could help us become more energy efficient.

We chose Way Companies for several reasons; (1) Way Companies helped us find ways to accommodate our individual needs and didn't just try to sell us their products (2) they were very thorough in their investigations for ways to cut cost (3) they were relentless in making sure we were pleased with their work and everything was working to our satisfaction (4) and they were professional and easy to work with.

I feel strongly that by choosing Way Companies as our energy saving consultant, I made one of the best financial decisions since being Superintendent of Groveton ISD.

The recommendations that Jonathan Blackwell and Larry Jones of Way Companies made to our board included, replacing old lighting fixtures with more efficient lights that provided more lighting and used less energy, and replacing about 75% of our heating and air conditioning units with controls, that would use less energy and allow for more efficient heating and cooling in our buildings. These two gentlemen continue to monitor and visit our district to make sure we are saving on our energy costs, as their company promised.

Groveton ISD is completely satisfied with our decision to award Way Companies the contract to be our energy consultant and save our school thousands of dollars.

If you have any questions please feel free to contact me directly.

Respectfully,

Joe Driskell
Superintendent
